I have reason to believe that I will not be able to serve out my term of office on the city council. I am therefore exercising my option of the option of an interim appointment to fill my seat.

I recommend to you highly that my wife Jean C Hobson be recommended by the Statehood Party to serve the 114 day interval before an election.

I appreciate your consideration in this matter. As you are aware, I am sure of the fact that the party in which the vacancy occurs makes the interim appointment.

Sincerely yours

Date December 18, 1974

Subject Julius Hobson

Have you included in your plans provisions for ramps and other wheelchair accommodations which Julius Hobson may require?

cc: Vice Chairman Sterling Tucker

TO: CHAIRMAN NEVIUS
FROM: RODNEY A. COLEMAN, EXECUTIVE ASSISTANT TO THE VICE CHAIRMAN

Handicap provisions for allowing Councilmember-elect Hobson to get on dias, by means of a portable ramp, is being constructed by DGS. Ramp must be 1 to 7 rise thus making it quite long. This ramp to be at the entrance from the Chambers and not from 501. If it was put in 501 it would necessitate cutting the door as well as stairwell.

Other provisions such as for mens room are also being effected.

When office assignments and dias seating is arranged, I'll recommend that he receive special consideration.

TO: Julius Hobson, Council Member
D.C. City Council

Department,
Agency, Office: General Services

Date: JAN 30 1975

SUBJECT: Assignment of Reserved Parking Space in the Area I Parking Lot in the Rear of the District Building

By virtue of the authority delegated to me by Commissioner's Order No. 73-152 dated July 3, 1973, you are hereby assigned a reserved parking space in the Area I parking lot in the rear of the District Building, 14th and D Streets, N.W., effective February 1, 1975 at a fee of $35.00 per month.

The monthly fee of $35.00 should be made payable to the D.C. Treasurer and forwarded to this office at the following address:

Bureau of Buildings Management
Department of General Services
Room 810, South Potomac Building
613 G Street, N.W.
Zip Code 20001

No billings will be sent to you. You are requested to make your payment promptly on or by the first working day of each month. Only checks or money orders will be accepted. If you should prefer to do so, you may hand carry your monthly payment to Lieutenant Robert Woodley, Office of the Special Police, Room 6, District Building.

You will be required to use an electronic transmitter to get in and out of this Parking Area. The transmitter will be hand delivered to you by a representative of this department with the understanding that should the transmitter be lost or broken, the cost for replacing same, $35.00, will be borne by the party to whom the transmitter was issued.

Dear Mr. Hobson:

On behalf of the Board of Directors, Medical Staff and employees of Rogers Memorial Hospital I would like to extend our congratulations and support as you take the oath of office and accept a role in the leadership of the District of Columbia.

Rogers Memorial Hospital has served the health needs of Near-Northeast and Capitol Hill for the past 86 years. The hospital is currently involved in an extensive modernization program which when completed will provide our service area with the finest in health facilities. We look forward to the pleasure of working with you as we solve the city's health problems and invite you to visit with us at your earliest convenience.

Again please accept my personal congratulations on this momentous occasion.

Dear Mr. Hobson:

As you embark on what is probably the most significant responsibility in the history of this city, I would like to take this time to personally extend my best wishes to you as a member of the newly elected District of Columbia City Council. Of course, along with my own best wishes come those of the business community as represented by the Metropolitan Washington Board of Trade.

Many speeches have been made and articles written about the awesome tasks which face you, but I suspect that we have as great an appreciation of the nature of these responsibilities as anyone. It is our earnest hope and desire that in the course of this year and the years ahead we can be of the utmost assistance to you with the one objective of making this a better city in which to work and to live.

Whether we agree or disagree, I can assure you that our comments will be constructive.

As we have offered before, our committees and our staff are always available to you to assist in any project you want to undertake.

Again our congratulations and our best wishes.

January 10, 1975

TO: All those who were candidates on 14th of August, 1974 for Public Office in the District of Columbia.

FROM: District of Columbia Board of Elections and Ethics

SUBJECT: Compliance with Title 6 of the Conflict of Interest and Disclosure Statute

This communication is to remind you that Section 602(b) of Title 6 of Public Law #93-376, 93rd Congress, Conflict of Interest and Disclosure statute, require that "any candidate for nomination for, or election to, office who at the time he becomes a candidate, does not occupy any such office, shall file within one month after he becomes a candidate for such office, and the Mayor, and the Chairman and each Member of the Council of the District of Columbia holding office under the District of Columbia Self-Government Reorganization Act and the Chairman and each Member of the Board of Education and each officer and employee of the District of Columbia Government who performs duties of the type generally performed by an individual occupying grade GS-15 of the General Schedule under Section 5332 of Title 5, United States Code, or any higher grade or position (as determined by the Board) regardless of the rate of compensation of such individual shall file with the Board in a sealed envelope marked "Confidential Personal Financial Disclosure of (his or her name)."

Accordingly, the D. C. Board of Elections and Ethics has ruled that members of all independent Boards and agencies of the D. C. Government and all who shall hold an appointment in the general service classified as a GS-15 or higher, an appointment in the Police of Fire Department as a Class 9 or higher, an appointment in the Board of Education as a Class 3 or higher, who shall otherwise be employed by the District of Columbia at an annual rate of compensation of $29,818, or more, or who shall serve pursuant to an appointment of the Mayor, shall file on or before that date the following documents and information in a sealed envelope marked "Confidential Financial Statement of (name of individual filing)."

By regulations of the D. C. Board of Elections and Ethics these Confidential Personal Financial Disclosure Reports were due on or before December 31, 1974.

As this statute and implementing regulations are of paramount importance and the result of a Congressional mandate, the Board directs that all persons affected thereby must file on or before January 15, 1975, in that the Board of Elections and Ethics will be taking appropriate action to insure full compliance with the statute.

In order that there not be a misunderstanding regarding the content of the reports, the following reporting requirements are provided again:

(1) a copy of the returns of taxes, declarations, statements, or other documents which he, or he and his spouse jointly, made for the preceding year in compliance with the income tax provisions of the Internal Revenue Code of 1954;

(2) the name and address of each business or professional corporation, firm or enterprise in which he was an officer, director, partner, proprietor, or employee who received compensation during the preceding year and the amount of such compensation;

(3) the identity of each trust or other fiduciary relation in which he held a beneficial interest having a value of $10,000 or more, and the identity, if known, of each interest of the other fiduciary relation in real or personal property in which the candidate, officer, or employee held a beneficial interest having a value of $10,000 or more, at any time during the preceding year. If he cannot obtain the identity of the fiduciary to report that information to the Board in the same manner that reports are filed under this rule.

Reports should be sent to the Board of Elections and Ethics, Room 7, District Building, in a sealed envelope marked "Confidential Personal Financial Disclosure" of your name, department and job title.

Persons who have any questions concerning the applicability with this statute should contact one of the following:

Request that the wooden ramps, used for handicapped persons, be placed on a daily basis for use by Councilmember Julius Hobson.

Councilman Hobson must use a wheelchair because of his physical condition, and his ingress and egress from City Hall would greatly be facilitated by the use of the ramps.

This arrangement is requested to commence immediately and continue each day at 9:30 A.M., and in the evenings, upon call from Mr. Hobson's Assistants, Mrs. McCottry or Mr. Brown.

Your cooperation in this matter would greatly be appreciated.

Request for a Permanent Handicap Ramp at the 13½ Street Entrance to the District Building

Thank you for your memorandum requesting the wooden ramp at the 13½ Street Entrance of the District Building.

However, I would like to officially request that the ramp be a permanent one. Not only would this benefit other handicapped people employed in the District Building, but would be a service to the handicapped Washington Community at large whose business would require them to come to the District Building.

I would greatly appreciate your initiating the necessary action for the installation of a permanent ramp.

Dear Julius,

I'm sorry my chase after Victor Solomon was fruitless. When Rosemary and Walter called me to see if he could take the position on your staff I heartily agreed with their judgment and recommendation. He has always been a joy to work with and our little crew on the MONTCIVITANO were so happy that he sailed with us into Cuba and back. But he has been too occupied with his rather new responsibility as Equal Opportunity Officer of our Hospital Corporation citywide to move away at this time. Victor and I thought Solomon Goodrich would be a fine choice but when we called him he was loath to leave a new project.

Most likely you have found someone to your satisfaction but on the contingency that you are still looking I'm writing to direct your attention to a young man whose education and professional progress I've been following since he was at the Sunday School of the Riverdale Ethical-Humanist Society where his father was teen-age leader. Since then he has gone on to become a city planner concerned with the development of human resources and served for a time with the American Institute of Planning in Washington, D.C. His name is Ronald CAines and he lives with his parents at 205 Trenchard Street in Yonkers, N.Y. Presently he is involved in a student advisory and tutoring program at the City College.

Walter has met Ronnie CAines because his father, Marcus Caines was my partner in the EAst New York Charrette for two years and more and when we got to Washington we partied together. Walter shares my own high regard both for Marcus and Ronnie. Their phone number is 914 Yo5 9474.

With all best wishes,

# D.C. Schools Caught in Squeeze

COMPLY, From C1

count longevity pay in its measurements.

Other differences, which include the type of personnel and the grades covered, became a problem when the Office of Education indicated it would monitor local school districts more closely for compliance.

School districts out of compliance faced withholding of Title I funds. For the D.C. public schools, the money amounted to $9.5 million this year.

"Neither the equalization order nor comparability have any relevance to the educational process," Elliott said. "They are mathematical computations done to satisfy someone's definition of equality."

Although Elliott maintains that the school system has tried to comply with both, "there are some computations that show that we can't be comparable and equal at the same time," he said.

Julius Hobson Jr., vice president of the school board, disagreed. "It's possible to work them out," he said.

"It's administratively feasible to comply with both," said Joan Baratz, who is conducting a study of equalization for the Educational Policy Research Institute. "I don't know whether it's educationally sound. That's the question."

Problems of complying with both the equalization order and Title I this year involved not just whether the school system could comply but when.

The administration planned moves and posted some transfer notices in November. Those moves were blocked when the school board found some of the proposed transfers were based on inaccurate data and required revisions. Instead of completing the transfers by early December, as planned, school officials finished the equalization moves only days before the end of the year.

The moves, followed five days later by transfers for Title I compliance, came only weeks before the end of the semester and to some disruption.

"It's the kind of disruption you have if you move in the middle of the year," said Lynn Ochberg, whose son's first-grade teacher was transferred from Murch in the Title I shifts.

"I think the dislocation could come earlier, and it might have less effect," said Peter F. Rousselot, the attorney who represented Hobson Sr. in the court battle leading to equalization. "I don't see why they can't do it by Nov. 1," he said.

In the process of complying with equalization and Title I, "we would be significantly better off if we had in place some trappings this school system badly needs," Elliott said.

The system has neither the up-to-date automatic data processing system it needs or enough money for programming, he said.

The school system's information systems, according Rousselot and others who have followed the progress of equalization, have been improved by the court's requirement that the system keep certain types of records, although they could be improved further.

Mrs. Baratz, who is studying the equalization decree is under a grant from the National Institute for Education and in cooperation with the D.C. Citizens for Better Public Education and the Lawyers Committee for Civil Rights, said she found widespread errors in backup data provided with the school system's report to the court on compliance with the equalization order.

Contrasting what resources the school system said were in place at 38 schools with what actually was there during 1973-1974 school year, she said she found that the school system was wrong in its descriptions of 21 of 38 schools.

"It's not deliberate It's just that the machinery isn't there," she said.

"I think the system is now better than it was before 1971. The decree has produced a whole set of information the board didn't have before," attorney Rousselot said. "If they find a lot of errors, it's not a problem with the decree, but with the information system."

The court order provides for justifiable exceptions from the decree for individual schools. It also provides that, "at some future time, the Board and the school administration may adopt specific measurable and educationally justifiable plans which are not consistent with the present order."

If the plans are "reasonably designed in substantial part to overcome the effects of the past discrimination on the basis of socio-economic and racial status, the court may modify the present order," Wright said when he wrote the 1971 order.

Apparently, the next step for the school administration is a comprehensive proposal of its own to substitute for the current process of equalizing teacher costs. The administration is working on a proposal known as "incommensurability."

Incommensurability, still being developed, is to look at the needs and abilities of individual children and to design a program allowing them to reach certain educational goals. How those needs and abilities are measured and how goals may best be reached still is under study.

Once a formula is developed, Elliott said, the superintendent probably will ask the board's permission to ask the court that it be tested on some portion of the school system.

Mrs. Sizemore said she also may ask for relief from the order for a year or so, while the school system works on a new way to provide equal educational opportunity.

Julius Hobson Sr., has sent Mrs. Sizemore a telegram asking her to brief the City Council's education and youth affairs committee, which he heads, on the school system's compliance with the decree.

"In designing an alternative plan, the benefits inherent in the Wright decree must not be deemphasized," Mrs. Sizmore said in a draft of a proposal for relief from the court order.

The major benefit, by most estimates, is that the order ended large disparities in spending that generally favored children from affluent, white families west of Rock Creek Park at the expense of other children.

The court found at the time of the decree that average teacher outlays per pupil west of the park were $669, about 27 per cent higher than the $528 average for the rest of the city and 40 per cent higher than that for Anacostia.

Under the court order, teacher shifts this year were designed to bring teacher cost per pupil to within 5 per cent of $747.21 in each city schools.

"It has provided to schools in far Southeast more resources than they would have gotten," said Betty Holton, who directs the school system's equalization efforts.

But in the same document in which she urged awareness of the benefits of equalization, Mrs. Sizemore made it clear she thinks the order does not go far enough.

Both the equalization order and the comparability requirement of Title I focus on what goes into schools more than on the way resources are used or what they produce, she said.

"I think it's worked out fairly well," Hobson Sr. said of the court order. "Almost anything can stand some improvement," he added.

"I think the decree that judge entered here provided a better system of allocating resources than we had before. It's better that the school system operate under this decree than not," said Rousselto, Hobson's lawyer. "What we won't do is drop this one because someone says it doesn't make sense but doesn't have an alternative."

"Let them come up with something better and that would be terrific," he said.

Now, said school board Vice President Julius Hobson Jr., "the system is simply paying for the injustice of the past. . .If you don't take the offensive in an educational system, the court do it for you, and then you're tied up."

The problem that will occupy more time and attention this year is how to do better.

"People say, 'Is it really true that more money makes better education? And my response is—until you prove it makes no difference at all, there's no reason to deviate from equalization," Rousselot said.

## U.N. Cyprus Unit Put on Alert

NICOSIA, Feb. 9 (UPI) — United Nations troops guarding Nicosia's closed airport were on increased alert today to meet any cease-fire violations along its perimeter, a U.N. spokesman said.

The announcement came after rumors in the capital that Turkish troops might launch an attack to capture the airport.

Several Greek Cypriot families left their homes near the airport last night to stay with friends and families further south. They said U.N. troops had been digging trenches at the airport.

# Lilian B. Mountford, 90, Active With Girl Scouts

Lilian Bailey Mountford, 90, active in Girl Scout activities for 49 years, died Thursday at the Mar-Salle Convalescent Center.

She was the widow of retired Army Col. Frederick A. Mountford, who died here in 1971.

During the years she traveled with her husband on his assignments to posts in this country, Hawaii and Panama, Mrs. Mountford became involved in Girl Scouting at those places.

Born in Fairchance, Pa., she started in the Scout movement as a Brownie Leader in Kansas in 1926. She later held executive positions in San Francisco, Hawaii, Long Island, Ft. Monroe, Va., the Panama Canal Zone, where she was commissioner of Girl Scouts, as well as here in Washington and Arlington.

Mrs. Mountford liked to recall that one of her troop members in Hawaii received a special award for rescuing a drowning child.

She and her husband had lived in the Washington area since his retirement in 1945. She was on the national board for the Rockwood Girl Scouts in the Potomac area.

A Brownie camping lodge in the Manassas area had been named in her honor. In 1958, she was chosen one of five outstanding Girl Scout leaders in the Washington area.

On her 90th birthday last March, a large group of both Girl Scouts and Brownies gave her a special party at the Mar-Salle, which was televised.

The daughter of a Presbyterian minister, Mrs. Mountford was also active in church work. She taught Sunday School in churches, wherever her husband was stationed and played the organ at services of all denominations for military personnel.

She also had been a volunteer worker for many years with the American Red Cross.

She is survived by two daughters, Mrs. William J. Ely, of Arlington, and Mrs. Edwin S. Hartshorn, of Elk Rapids, Mich., six grandchildren and seven great-grandchildren.

The family suggests that expressions of sympathy may be in the form of contributions to the Girl Scouts of America.

# *Alice H. Drake, 86, Author and Lecturer*

Alice Hutchins Drake, 86, a writer and at one time a well-known club and radio lecturer here, died Thursday at the Washington Hospital Center.

Miss Drake had been an editorial researcher for the Haskins Information Service from 1920 to 1960 and as such had a study desk at the Library of Congress.

Considered an authority on words, Miss Drake often was called upon to describe the realms of art and literature especially to the blind.

For many years, she described the mural decorations for blind patrons of the Library of Congress and the Corcoran Gallery of Art.

Miss Drake's command of the English language and her success in interpretations led to weekly radio talks on painting and sculpture on display in Washington.

She broadcast on radio station WRC. One of her lecture series included "Famous Paintings of Many Lands." She served for a number of years as radio chairman of the District branch of the League of American Pen Women.

Miss Drake was born in Chicago and came to Washington as a child. She graduated from Central High School and attended George Washington University.

She lived for a short period in Norfolk, Va., but spent most of her life in Washington.

She conducted the Book Lovers' Club and a program called "Little Talks on Large Topics" for many years at the YWCA. She also taught short story and verse writing there.

Miss Drake also was an author. Her best known work was "Little Prayers for Stressful Times."

She had been a member of the Columbian Women of George Washington University, the Political Study Club, the Washington Club and the American Newspaper Women's Club. She also had been on the poetry committee of the Fine Arts Department of the D.C. Federation of Women's Clubs.

For many years, Miss Drake, who lived at 1673 Columbia Rd. NW, had been an active member of the Episcopal Church of the Epiphany in Washington.

There are no immediate survivors.

# Urges 'Black Power' Run Ghetto Schools

By JUDSON HAND
*World Journal Tribune Staff*

A white city school principal has urged Negroes to "demonstrate the power of pride in being black" by taking over and running schools in ghetto areas.

The "revolutionary" proposal came from Edward P. Gottlieb, principal of PS 165 on Manhattan's West Side, in a statement entitled "Ghetto Schools Need Black Power."

Floyd B. McKissick, national director of the Congress of Racial Equality, endorsed the statement in a letter to Gottlieb.

"The racial imperialism of the white community of America has given the Negro no other choice but to fight for independence," asserted the outspoken principal, whose school is at 234 W. 109th St.

"When the colonists were denied the 'rights of Englishmen' they struck out for themselves. The Negroes' right to participate in American life has been abridged. He owes it to himself to build his own Negro Community Action Committee, revolutionary committee, wherever he is ghetto-caged.

"His first tea party should come off in our segregated schools where he should take over completely and begin to demonstrate the power of pride in being black . . .

"Let the Negro community define their goals, establish curricula, choose a staff, make a partnership arrangement with a university, negotiate with teachers unions and assume full budgetary responsibility for the enterprise.

"If the city, state or federal government won't subsidize it, the community can apply to the United Nations or get foreign aid from the U.S." said Gottlieb, a mild-mannered man long active in the civil rights struggle.

DR. EDWARD GOTTLIEB

Such radical procedures are needed, he said, because "the white liberal community of the north has not only lost all initiative in the drive toward racial integration but perhaps has now forfeited the last opportunity to prevent racial conflagration . . ."

He added that "the Negro nation . . . must be trusted to rebuild their Harlems in the image of a new world — equal, free interdependent and multiracial."

In his letter, McKissick told Gottlieb, "We were especially pleased to receive your statement because it is essential for the administrators of our schools to comprehend the reality of the grave educational problems we face."

McKissick said it wasn't often his office receives "a communication that indicates such understanding of the black community and its needs . . . as your statement 'Ghetto Schools Need Black Power'."

Gottlieb, a poet who sometimes quotes Plato in Attic Greek, was a leader in the movement for voluntary busing of white pupils to predominately Negro schools.

## From A Black Point Of View

# Harlem's Own School System

By FLOYD McKISSICK

The Congress of Racial Equality (CORE) should be commended again. This time, for the leadership it is providing Black people in the establishment of their own public school system, that is, The Harlem School System (HSS).

McKISSICK

The members of the Harlem Board of Education's organizing committee represent a group of advanced thinkers, who need little introduction to the public at large, and who have excellent track records for representing the community.

Members of the committee include: Mr. Keith Baird, Mr. Allen Ballard, Mr. Max Bond, Mr. James Brown, Mr. Eugene Callender, Mrs. Elsie Carrington, Dr. Herbert Cave, Mr. John Henrick Clarke, Mrs. Thelma Cockerham, Mr. Marshall England, Mr. James Farmer, Mr. George Goodman, Mr. Solomon Goodrich, Mr. Jeff Greenup, Mr. John Holloman, Mr. Roy Innis, Mr. Charles King, Senator Basil Paterson, Mr. Charles Rangel, Mr. Jerome Smith, Mr. Don Simmons, Mr. Theodore Stent, Mr. Livingston Wingate and myself.

State Senator Basil Paterson is providing the legislative leadership for the establishment of the Harlem Independent School System and is doing a magnificent job.

The present Board of Education is inadequate to deal with the problems that face the Harlem community. That Board does not begin to understand the problems of Harlem and shows no signs that it will ever be able to understand them. Few white teachers, because of their backgrounds, are able to understand the complexities of the problems in the Black community. Many have not yet developed a non-racist attitude toward Black people.

Why is it that the Board of Education does not want Black people to control mass numbers of young intelligent people located in the heart of Harlem? Why is it that we do not have sufficient numbers of Black teachers in Harlem? The denial of our right to control the hiring in the schools in this community is a basic denial of the employment rights, the organizing rights and the self determination of Blacks. This denial results from fear—absolute and total fear on the part of white people. The dispersal of Black children in the name of integration has served as a method of thought control.

The multiplicity of problems growing out of the failure to have an adequate and independent Board of Education for Harlem is in part responsible for the fact that Blacks do not own property in their own community. The denial of the right to a sound education, based on self-esteem and pride, has prevented Black people from entering and owning businesses and from accumulating sufficient funds to buy property and to invest in their future.

An independent education system is a step in the right direction. It is a step which will eventually result in putting dollars in every Black person's pocket. Until we control our educational system, we cannot guarantee the education necessary to get and hold high paying jobs. All Black people should support this effort to establish a Black Independent Board of Education.

# *White NY principal supports black power*

"I believe that the white community has forfeited its power to convince our fellow Afro-Americans that any change for the better can come from us. Our school integration plans have ended in ignominious defeat. Since it has proved hopeless for us to bring the Constitution of the United States into operation in the Harlem ghetto, we should abdicate from our colonial domination over that area.

"That's why, in New York, though I've been a persistent advocate of Reverse Integration (white children into ghetto schools), I've come to the conclusion that what we need now is a form of separatism in which our ghetto communities have complete autonomy over the education of their children."

This is what Dr. Edward P. Gottlieb, National Chairman of the War Resisters League and principal of P.S. 165 on New York City's West Side, told a Ford Foundation Conference on Urban Schools held at Stanford University two weeks ago. He advocated black Boards of Education for black communities, decentralization of urban school systems, and endorsed black power as the only way in which black people will get what should be theirs.

## NEW SELF IMAGE

"Only a new self-image which reveals to the child that black can also be beautiful," he said in an interview with this reporter, "only this can create in him a feeling that he too can make it. Black men must free themselves from the cultural imperialism of white power. To do this they can best make a beginning by taking over schools in their own ghettos.

"In New York, when they were picketing a school in Harlem and demanding a black principal, I pointed out that the school was empty. 'Go in and take it over,' I told them. Don't wait.'"

Gottlieb came to Palo Alto a week before the Conference to engage in peace work for the War Resisters League. He visited the Day Care Center in East Palo Alto and said it was the best program of its kind he had seen anywhere. He urged people at the Stanford Conference to go to East Palo Alto, remarking they could learn more from what was happening there than from all the speeches at Stanford.

"Experiences in the Mississippi Head Start program, in Haryou-Act (Harlem), and in what I observed with great hope and gratification here in East Palo Alto convince me that with a Malcolm X paperback in his pocket, the Afro-American will be able to recreate an educational enterprise and make it go far beyond the school walls. Black people are making possible on an action front what some of the experts brought out here by the Ford Foundation only dream about. They will prove that the best school is the community.

"The real thrust of new political action and change in this country is the rising ferment of the Afro-American community," he added. "People who were able to triumph in Montgomery, Selma and Mississippi—they will ultimately do for America what the radical movements only began."

Gottlieb, who has just retired after 42 years in the New York City school system, plans to return to East Palo Alto in the fall to run a teacher's workshop. For the remainder of the summer, he said, he hopes to work on the movement toward mass civil disobedience against the Vietnam war.

## HOPEFUL SIGN

Asked about his reaction to Bay Area anti-war activities, Gottlieb said he had come a week early because of the hopeful sign he had seen in the action of 47 Stanford faculty and staff who had taken a pledge to civil disobedience. "Since coming here I've been gratified to find that the level of action and protest in Los Angeles, San Francisco, and Palo Alto is significantly high compared to the East. I get a sense of organizational strength out here—you seem to have the resources to mobilize an increasing number of people on many levels."

Gottlieb feels optimistic about the prospects for peace. "The activists in the peace movement have reached the American conscience, but in order to sustain the pressure and dialogue they must keep up the dramatic witness via draft resistance and civil disobedience. Those who have a sense of responsibility for the whole community, those who take the Nuremburg statutes in the personal context intended—these people must involve themselves in steady resistance, to the point of civil disobedience and jail."

Dear Mr. Hobson:

Thank you for your letter of February 21, enclosing a copy of a memorandum from the District of Columbia City Council to the Mayor.

I share your concern with police surveillance of the political activities of citizens. My Subcommittee on Courts, Civil Liberties, and the Administration of Justice is presently engaged in an inquiry directed at the national implications of such surveillance. Only last week, we heard testimony from Congressman Parren Mitchell about similar surveillance in Baltimore.

I hope that our combined efforts will result in the facts about surveillance of American citizens becoming fully known so that effective legislative remedies can be developed at both the national and local level.

Good luck to you in your inquiry.

Thank you for your recent letter enclosing data relating to police surveillance of political activities in the District of Columbia.

I agree that such actions violate the privacy of individual citizens and are repugnant to our Constitutional guarantees. Our subcommittee is currently investigating activities of the CIA, Secret Service, and the IRS in connection with certain exemptions of the Privacy Act of 1974. While our investigation involves only Federal agencies, I appreciate your making available the details of your efforts regarding the D.C. Police Intelligence Division's surveillance program.

Dear Councilmember Hobson:

Thank you for writing me giving your views about the Select Committee on Intelligence to which I have just been appointed. Contrary to what many believe, the panel will not confine its investigations to alleged wrongdoing by the CIA, but will look into all government intelligence and investigative agencies.

The purpose of this committee is to determine where oversight by Congress has been neglected and what laws and procedures should be changed to insure that no agency exceeds its authority under statute or the Constitution.

Many citizens are apprehensive that the investigations may be politically partisan, might restrict legitimate intelligence-gathering activities essential to the nation, or might reveal secrets that would endanger our security. These fears are, in my opinion, groundless, and my colleagues and I are committed to seeing none of these charges can ever be fairly made.

I have received a large number of suggestions on how the committee should proceed and what it should look into, and all of these have been sent to the committee staff for evaluation. I am not, therefore, commenting on them because the committee's opinion should be respected over my own. All of the suggestions will, however, receive the careful consideration they deserve.

Thank you again for your concern.

FOR RELEASE AT 4:00 P.M. TODAY

CITY COUNCILMEMBERS ASK MAYOR FOR DETAILED INFORMATION ON POLITICAL SURVEILLANCE BY D.C. POLICE

Today, Julius W. Hobson asked other members of the City Council to join with him in sending a memorandum to the Mayor requesting that Chief of Police, Maurice Cullinane report fully on political surveillance by D.C. Police Officers.

Councilman Hobson asked that the report include a list of all persons, both D.C. residents and visitors, who were personally followed or watched by police officers for non-criminal reasons by the Police Intelligence Division, and names of those who authorized the surveillance program.

The eleven City Council members who joined with Mr. Hobson in the memorandum also requested that Councilmembers receive complete copies of the final report along with the Mayor.

Councilman Hobson stated "Although I expect the Mayor to cooperate, the City Council has the right to subpoena information and would not hesitate to do so when it comes to protecting the civil rights of both citizens of the District or visitors to the Nation's Capitol."

GOVERNMENT OF THE DISTRICT OF COLUMBIA

CITY COUNCIL

WASHINGTON, D.C. 20004

February 18, 1975

MEMORANDUM TO: MAYOR WALTER E. WASHINGTON

FROM: CITY COUNCIL MEMBERS (signatures below)

SUBJECT: Political Surveillance by D.C. Police Officers

Recent newspaper reports have indicated the possibility of illegal activity by the D.C. Police Department. We are glad to note that Chief of Police Maurice Cullinane has already ordered the Department to prepare a comprehensive report on activities of the Intelligence Division. However, members of the City Council who have signed this memorandum request that specific information be included in Chief Cullinane's report. We also request that complete copies of the report be made available simultaneously to City Council members and to you.

It is unfortunate that, in advance of the report, Chief Cullinane, who has been with the Police Department many years, assured you "I can state in good conscience that at this writing I have no personal knowledge that either the data gathered or the message /methods (?)/ utilized represent activities that would be termed illegal". Since both you and Chief Cullinane occupied positions of authority during the period under investigation, we are sure the citizens of the District would feel more comfortable with an independent review of the facts by the elected City Council and, therefore, we know you will support our efforts to include all pertinent facts in this first report.

Newspapers have already written that Councilmember Julius W. Hobson, his wife Tina Hobson, Councilmember Marion Barry Jr., and Delegate Walter Fauntroy were all targets of police spying by undercover agents during the late 1960s and early 1970s. When was this type of political surveillance first initiated by the Police Department? Under whose authorization? From that date (or year) until the present, we ask that the following information be included in Chief Cullinane's report:

1. A complete list of all persons (both D.C. residents and visitors) who were named in special non-criminal files consisting of newspaper articles and other published materials maintained by the Police Department intelligence program. Provide a definition of what the Police Department considers "criminal" and "non-criminal" (i.e. does "criminal" include such items as parading without a permit, failure to move on, etc.).

A complete list of all persons subjected to other forms of surveillance and observation for non-criminal reasons including, but not limited to, following people around, attending meetings or speeches, wiretapping and use of other eavesdropping or recording devices whether visual or auditory. Be sure to include information on any

such surveillance currently being maintained on D.C. elected officials or their families, U.S. Congressmen or on other citizens and visitors in the Nation's Capitol.

2. It is an established fact that former Police Chief Jerry Wilson dealt directly with the Department of Justice and the White House and did not report to you during the months of intensive anti-war activity; therefore, who actually authorized the surveillance of each individual listed above: Chief Wilson? Someone at the White House? CIA? FBI? Justice Department? Provide all copies of documents and policy statements relating to authorization of political surveillance and monitoring as defined under Section One of this memorandum.

3. What has happened to each of the files maintained for non-criminal reasons by the police intelligence program? On what date was each file shredded? By whose orders? Were copies of the files given to other agencies? Provide directives and policy statements for routine destruction of intelligence data. Include all directives and policy statements providing for the routine destruction of all Police Department files.

4. Which demonstrators were denied permits because of information provided by the police intelligence program? What reasons were given for each denial? Were such groups informed of the reasons? Who made the decision in each case? Provide records.

5. What has been the total cost (provide figures on an annual basis) of the police intelligence program covering non-criminal activity? How many police officers (hours) were involved? How was the cost justified? Provide all documents relating to the police intelligence program focus and goals. What information was discovered through this form of political intelligence gathering that could not have been learned from other sources?

It is very easy for top Department officials to say "To my knowledge...nothing illegal has happened...". Is there a possibility that significant activities or generalized practices exist which Chief Cullinane doesn't know about? What kinds of controls and audit mechanisms have been established by the Department which would prevent illegal activity on the part of specific officers. If any illegal activity actually occurred, the Department report should indicate who was responsible. Was there supervisory negligence? What were the reasons?

The City Council has an immediate obligation to investigate the possible violation of the civil rights of citizens by the D.C. Police Department. Chief Cullinane's report is the first step and will determine how intensive the Council's investigation should be. Therefore, we would appreciate receiving copies of the complete report no later than the first week in March.

# Council Asks Specific Data On D.C. Police Surveillance

By Linda Newton Jones
Washington Post Staff Writer

The D.C. City Council yesterday sent to Mayor Walter E. Washington a list of questions it would like answered in the forthcoming report on the intelligence-gathering activities of the D.C. police department.

Included among the questions was one about the estimated total cost of the intelligence program and another on the degree of control department officials have over the activities of individual officers in order to prevent illegal investigations.

The Council asked that it receive copies of the department's report no later than the first week in March. Members said the report would provide the basis for a possible Council investigation into intelligence activities of the department.

D.C. Police Chief Maurice Cullinane ordered the internal investigation into the activities of the department's intelligence division last week after it was reported that city police maintained files on the personal lives of antiwar activists and some local politicians.

At-large City Councilman Julius Hobson, who was reported to have been included in the police files, led the Council in its move to obtain the information.

Hobson told the Council at its committee-of-the-whole meeting yesterday that he planned to ask the mayor for a copy of the report and for the additional information on the department. The Council endorsed Hobson's move and all members except Chairman Sterling Tucker signed a memorandum he delivered to the mayor.

Tucker told the Council that he had already conferred with the mayor concerning the report and did not feel he should petition him for the information. He said he already has "the assurances of the mayor" that the Council will receive the information.

Ward One Councilman David A. Clarke said he believes he was under surveillance by the police in 1971 when a woman, who was later revealed to be a police officer, joined a group he headed at that time, the D. C. Freedom and Independence Day Committee.

He said Ward Seven Council member Willie Hardy also was on the committee.

Recent reports of the intelligence activities of the department revealed that at-large Councilman Marion Barry and D.C. Del. Walter Fauntroy were included in police files.

Council members said in the memo that they are confident the mayor would support their quest for additional information since "we are sure the citizens of the District would feel more comfortable with an independent review of the acts by the elected City Council."

The Council asked that the report also include a complete list of all persons named in special noncriminal files and a list of persons who were subjected to other forms of surveillance for noncriminal reasons. Members also want to know who authorized the surveillances, who ordered the destruction of the files, and whether the information was used by other government agencies.

Attention: Ms. Florence Anderson, Secretary

Dear Ms. Anderson:

I received your letter of April 16, 1975. I am in the process of complying with your demands. This situation arose because I spent three years in the hospital with cancer. I am out now, and I am doing my best to prepare written information on your Grant and I will get it to you within the next ten days.

Thank you for your consideration.

Sincerely,

Julius W. Hobson

RECORD OF COUNCIL ACTIVITY JANUARY 1, 1975 - JULY 31, 1975
JULIUS W. HOBSON

BILLS AND RESOLUTIONS INTRODUCED BY COUNCILMEMBER HOBSON

Resolution 1-16, Resolution to Endorse the Equal Rights Amendment to the U.S. Constitution. (February 4, 1975)

Bill 1-43, the Returnable Beverage Container Act of 1975. (March 18, 1975)

Amendment to the Budget Act.(April 15, 1975) Requested the Transportation and Environmental Affairs Committee to recommend a 90 day delay before expending any money on the proposed resource recovery facility. Interaction with the Committee resulted in an amendment to the Budget Act requiring the Mayor to delay expending any funds on this project for 90 days in order to enable the District to examine other more cost effective resource recovery [illegible]

Bill 1-167, Architectural Barriers Act of 1975. (July 22, 1975) The bill would require that all newly constructed buildings,or ones which are being substantially remodeled, be designed to eliminate architectural impediments to the physically handicapped and the aged. The bill was cosponsored by Councilmembers Polly Shackleton, Willie Hardy, David Clarke, Marion Barry, James Coates, Sterling Tucker, Nadine Winter, Arrington Dixon and William Spaulding.

Bill 1-168, the District of Columbia Boxing and Wrestling Commission Act Amendment Act: The bill would repeal Section 7 (b) (2) of the D.C. Boxing and Wrestling Commission Act which allows out-of-state undertakers to obtain their liscense without taking the examination and eliminates the need for a reciprocity agreement with other states. The section as it stood would allow a non resident undertaker to be licensed without an examination--with no agreement that other states treat District residents in the same way.

LEGISLATION CURRENTLY UNDER STUDY

A bill regulating D.C. Police investigation of non criminal activity.

Bills relating to public education in the District. Particularly in the area of equalization of expenditures for the D.C. schools and local school budgeting.

Legislation directing the city to develop a comprehensive resource recovery facility.

CO-SPONSORSHIP OF BILLS OR RESOLUTIONS

Bill 1-15, The Commissions, Boards, and Committees Act of 1975. (February 4, 1975)

Bill 1-24, Bill regarding Gun Control Regulation Revisions of 1975. (February 11, 1975)

Bill 1-36, Anti Sex Discriminatory Language Act of 1975. (March 11, 1975)

Bill 1-64, District of Columbia No-Fault Motor Vehicle Insurance Act. (April 8, 1975)

Bill 1-153, Bill to prevent the administration of lie-detector tests to employees and prospective employees.

Resolution 1-14, Resolution to Honor Dennis Banks and James Taylor.

Resolution 1-83, Resolution to Approve an Application for the D.C. Share of the Fiscal Year 1975 Section 5 Urban Mass Transportation Act funds for Metrobus.

OTHER ACTIONS

Police Surveillance: Hobson's press conference of March 29 opposing any budget allocations for police intelligence activities and his letters of February 18 and April 11 to the Mayor challenging the Police Chief's report and requesting additional information on intelligence activities of the D.C. Police Department as well as his written analysis of the Mayor's responses have brought pressure to bear on the Council to hold investigative hearings on the Police Department's non criminal intelligence activities on July 24 and 25.

In cooperation with the ACLU and citizen's groups, Hobson is in the process of carefully preparing a bill to establish standards of conduct for the police--and has contacted New York and Los Angeles for information on their recent efforts in developing such guidelines.

Resource Recovery: Hobson's questioning of the feasibility of the Mayor's proposed $9.6 million resource recovery facility as a capital budget item for Fiscal Year 1976 and his interaction with the Transportation and Environmental Affairs Committee resulted in a compromise where the Committee recommended to the Council that there be a 90 day delay in expending any money for the project in order to explore better methods of resource recovery.

He has personally contacted several federal agencies to develop information on this complex issue. Thus far the responses from the Federal Energy Administration and the Environmental Protection Agency have proved that the proposed resource recovery facility is not the most cost effective for the District. In fact EPA's analysis of the project indicates that it does not focus on energy recovery, nor does it take into consideration the full impact of beverage container legislation. In addition studies show that the capital costs of the proposed project may have been underestimated by as much as 50% and that the operating costs would be significantly higher than originally estimated. His concern in this regard has saved the taxpayers nearly $10 million on an outdated and ineffective resource recovery system.

Architectural accessibility for the physically handicapped at the District Building: It is extremely important for the more than 50,000 handicapped people living in the District to have access to the District Building either to speak to City Council members or other city officials and solve problems related to their needs. At this time it is virtually impossible for handicapped persons to enter the building because of the architectural design. Hobson has urged the City Council to authorize the construction of a permanent concrete ramp, railing and automatic doors for the physically handicapped at the 13½ Street entrance of the District Building to make the building accessible to all citizens.

Architectural Barrier's Act of 1975: Hobson has worked with several handicapped organizations such as the President's Committee on the Handicapped, the D.C. Rehabilitation Association, the D.C. Chapter of the National Association for the Physically Handicapped in preparing this legislation for introduction. A press conference was held on Monday morning July 21.

School Board Issue: Hobson has been the only Council member to consistently insist that the Council not interfere with the Board of Education on the Sizemore issue. He was the only councilmember to oppose the Council's action of May 6, 1975 urging that the school board take no action on the dismissal of Barbara Sizemore for 60 days.

Returnable Beverage Container Legislation: Hobson has been a prime advocate for passage of deposit legislation on beverage containers. He participated fully in the hearings on this issue and maintains continuous contact with numerous citizen and environmental groups.

Bills referred to Committee for study/action

(1) Bill 1-48 Child Labor Law - Introduced 3-18-75.

(2) Bill 1-49 Cadet Corps Termination Act - Introduced adopted 5-13-75, Act 1-20. Awaiting Congressional 30 day hold-over to become law.

(3) Bill 1-50 TSA Advance Emergency Leave - Introduced 3-18-75.

(3) Bill 1-50 TSA Advance Emergency Leave - Introduced 3-18-75.

(4) Bill 1-51 Teacher Sabbatical Leave - Introduced 3-18-75

(5) Bill 1-53 Authorize Acceptance of Voluntary Services- Introduced 3-18-75

(6) Bill 1-54 Jr. College Accreditation Act - Introduced 3-18-75. adopted 5-13-75, Act 21, Awaiting Congressional 30 day hold-over to become law.

(7) Bill 1-110 Elected Superintendent of Schools - Introduced 6-3-75. The Committee will present a report after hearings on July 2 and 3, 1975.

Bills 1-48, 1-50 and 1-53 have been studied by Committee staff. A written request has been made to Judy Rogers for Executive comment. Bill 1-48 will need extensive investigation and probably public hearings. Consideration being given to expand the effect of Bill 1-53 to include other agencies to accept free and voluntary services, e.g., libraries, hospitals; discussion with the Committee on Human Resources is being pursued.

Resolutions referred to Committee for study/action

P.R. 1-42 Teacher Salary Classification - Introduced 4-1-75; adopted 4-22-75, Resolution 1-64.

Hearing held or planned by Committee:

1. Hearings were held on the FY 1976 Budget to review the requests of the agencies under the purview of the Committee; these hearings were on March 22, and 27, 1975 Budget reports were filed with the Committee on the Budget on April 2 and 3, 1975.

2. Hearings were scheduled on Equalization (Wright Decree) and Comparability Requirements of ESEA, Title I on April 16 and 17, 1975 but were postponed in deference to a request from the Board of Education. The Committees on Educational Programs and Federal Grants of the Board of Education held hearings on this topic on June 7, 1975; we expect a report and recommendation from the Board of Education. We anticipate holding hearings of a substantive nature in the Fall of 1975.

3. Hearings directed by Act 1-13, Rational Administration of the Public Schools Act, on the status of the Board of Education and the organization and administration of the public schools in the District of Columbia were held on July 2 and 3, 1975. This bill within the ninety days that the act is in force, since it was enacted as emergency legislation on May 6, 1975. A report on the hearings was presented to the Council on July 22, 1975.

4. Hearings will be scheduled on Bill 1-48 at some time after the August recess. Hearings may be necessary in the consideration of Bill 1-53 and 1-110 referred to above.

5. Hearings are being planned on the coordination of activities by agencies e.g. school security and safety (now carried out by D.C. Public Schools. Recreation Dept., and OYOS)., recreation programs and facilities (Recreation Dept., OYOS and D.C. Schools), and coordination of capital construction projects to eliminate overlap or lack of proper facilities.

6. Hearings are being considered concerning possible Committee and Council approval of the Comprehensive Outdoor Recreation Plan, prepared for the Recreation Dept.; this plan was funded through a Bureau of Outdoor Recreation Grant and currently under review by both the Recreation Dept. and B.O.R.

7. Hearings are being considered for the enactment of legislation (now being drafted by Hobson) authorizing decentralized budget allocation (local school or "unit" budgeting) for the public schools.

8. The Committee requested in its FY 1976 budget reports, a series of reports from OYOS relating to operational aspects of its grant and regular-funded programs and coordination of such programs with other governmental agencies. These reports are due September 1, 1975. The Committee is considering legislation to reorganize various facets of youth programs--this will require public hearings.

Reprogrammings referred to the Committee for action/study

To date five reprogramming requests have been referred to and reported out of the Committee. While the Committee has reported favorably it has replied with critical comments on the capital construction process on each of the requests. All reprogrammings except Dunbar and WTI have been approved by Congress. Dunbar is scheduled to be considered at the

time the FY 1976 Budget is reviewed in Committee by Natcher and Chiles.

1. Recreation Center for the Mentally Retarded and Physically Handicapped - Referred 2-25-75; adopted 4-14-75.

2. Dunbar Senior High School (Demolition and Stadium Construction) Referred 2-25-75; adopted 4-141-75.

3. Wheatley Playground (Recreation Center) - Referred 2-28-75; adopted 3-25-75.

4. Parkview Recreation Center - Referred 3-21-75; adopted 4-14-75.

5. Washington Technical Institute (Aerospace-National Airport) - Referred 6-12-75; adopted 6-30-75.

Continuing Administrative Workload of the Council and Committee

Letters of inquiry and telephone calls for assistance from citizens and groups are received on a regular basis. These items require that Hobson and staff follow up on such requests, which include a variety of actions. Procedures have been developed to assure that citizen requests are handled promptly.

Meetings at the request of citizens and groups occupy a great deal of staff time. These meetings frequently require follow up actions. Hobson attends several such meetings each week.

Administrative duties and requests by the Council Chairman and other members require considerable time each week. This includes such items as status reports regular and special council meetings, time accounting, and regular reporting. These responsibilities are carried out by Hobson and staff. Although Hobson has been asked by the doctors not to sit more than two hours at a time--he has attended all but three of the 29 regularly scheduled Council meetings since taking office.

COUNCIL OF THE DISTRICT OF COLUMBIA

WASHINGTON, D. C. 20004

November 25, 1975

Dear

The Council of the District of Columbia is presently considering the approval of $9.6 million for a resource recovery facility based on a study done by the National Center for Resource Recovery (NCRR) prior to the elected City Council. Because of a number of reservations about the project itself and the way the contract for the feasibility study was assigned, I introduced a resolution disapproving the expenditure of the $9.6 million on October 7, 1975, and called on the District Government to competitively select an experienced energy recovery consultant to locate a firm market and only then to competitively design and construct a resource recovery facility tailored to meet the needs of that energy market.

There will be a number of important meetings related to this issue during the next several weeks. I hope interested organizations and individuals will plan to make their views known at these sessions and discuss whether the City should competitively design a resource recovery system (as called for in the Resource Recovery Disapproval Resolution), support modifications in the present plan, or support the existing plan. I am enclosing some recent material which may be helpful in the development of a presentation.

The first meeting of the Budget Committee to consider the Resource Recovery Disapproval Resolution will tentatively be on Wednesday, December 3, at 2:00 p.m. in Room 503 of the District Building. If you would like to request five minutes to present your views (or submit them in writing) please contact my Executive Assistant, Paul "Sandy" Brown at 638-2223. We will keep you informed of future meetings.

Thank you for your cooperation.

Dear Dean Cahn:

This is to congratulate you on your courage in selecting members of the Blackman's Development Center as security guards for your university. I dare say that the Blackman's Development Center is no less or no more military than any other guard group. I, therefore, think it is a good idea to utilize them in a security capacity as long as they understand their functions in that capacity.
